- > **Appellation(s)** : Costières de Nimes, Vin de Pays
- > **Cultivated space** : 17 ha
- > **Production** : 100 000 btles
- > **Soil(s)** : siliceous clay

The philosophy of the domain :

Domaine Cabanis has been producing organic wines since 1986. Come and discover the full range of products, which have all been produced with a combination of delicacy and thoughtfulness and have been certified by ECOCERT. The area of the domain devoted to vines amounts to 17 hectares, producing organic grapes for PDO and PGI (protected geographical indication) wines as well as dessert grapes.

Thus, the enhancement of the natural environment and the sense of hospitality have become leading concerns, next to the permanent improvement of the organoleptic quality of production (wine, table grapes and olive oil) .

With training and wine tourism events we organize, the Domaine Cabanis has become an active and open place on the world, for the health of the earth and men.

Mode of driving of the vineyard, wine-making and ageing :

The vineyard produces typical and traditional grape varieties of the Rhône Valley, i.e. Grenache, Carignan, Mourvèdre, and Syrah for red and rosé wines, and Viognier and Clairette for white wines. The dessert grapes are from the Chasselas (white) and Muscat (red) varieties.

The vines are mainly in pruning "Gobelet", particularly well adapted to hot, dry Mediterranean climate. Harvesting is mainly done by hand. Traditional vinification with a staking at the entry into cellar except for a small portion of carbonic maceration. The wine is aged in concrete tanks, enamelled steel and stainless steel. No aging in barrels for now, to keep the typical characteristics of the terroir and grape varieties.
