

You are an active or retired female farmer?

DFAM 03

The Departmental Federation of female agricultural
development groups in Allier

needs your point of view!
You are invited to answer the survey
enclosed in this mail to nourish its
project.

**« Woman's place in farming.
Tell me who you are,
D.F.A.M. will tell who we are ».**

The project of DFAM 03

Today, many female farmers wonder about

- their real place on the farm,
- their job organisation,
- their job acknowledgement,
- or how the human relationships within their job are experienced.

DFAM 03 female farmers told they needed to think about the following topics: how does it really work on farms? How do female farmers consider their job?

Through its project **“Woman’s place in farming. Tell me who you are, DFAM will tell you who we are”**, DFAM 03 wishes to carry out a survey among female farmers, in order to get answers to its questions.

These female farmers aim at getting information which will allow them to realize by themselves a reality which exists but which is not necessarily broadcast through media. They would also like to evaluate better and appreciate their own situation so that they can better position themselves to improve both on the professional and personal levels.

Thanks to its partnership with MSA Auvergne, DFAM 03 is sending to you the enclosed survey. It is sent to all the female farmers from the region, and also to female farmers who take part to agricultural development groups in other departments (Nièvre, Gironde, Creuse, Haute Vienne, Côte d’Or, Lot-et-Garonne).

DFAM 03 will also send it to female groups in Ireland, as they aim at making a discovery trip in Ireland.

***DFAM 03 cannot make this project come true without you!
You most probably have many testimonies to tell.***

Your answers will allow to:

- make a **written report**, available for everyone, which will present the collected pieces of information.
- fuel a **round table conference** which will take place in Allier in 2010.
- fuel **female farmers’ thinking**, in order to help them feel better in their job, thanks to sharing and exchange.

To know DFAM03 better...

DFAM 03 (Développement Féminin Agricole Moderne de l'Allier) is a departmental association for the agricultural development. It includes eight women's groups for agricultural development.

The association aims at setting up all the activities and actions allowing to improve rural families' living conditions by helping its members to evolve in their professional, social and cultural environment, and to get aware of society issues.

DFAM 03 has notably set itself the mission to improve woman's image in agriculture, to contribute to woman's well-being, and to promote mutual experience exchanges between its members.
